Combating Gendered Disinformation & Sexist Language

MDF  MYTH
DETECTOR

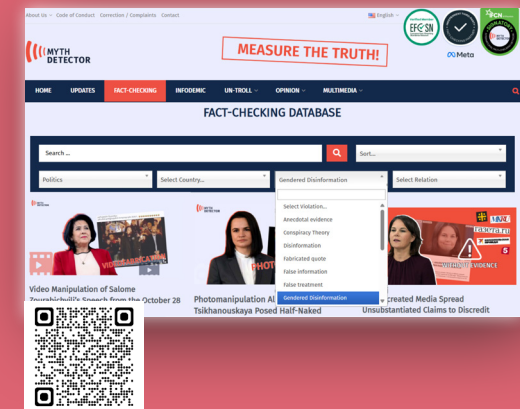

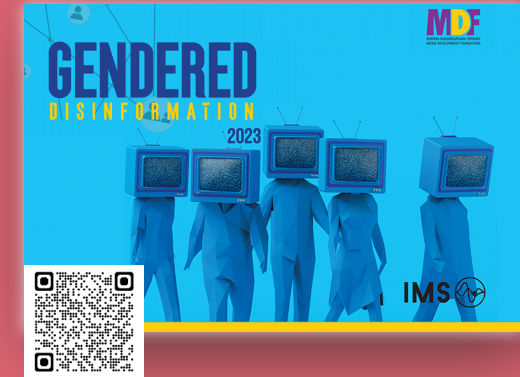

Media Development Foundation & Myth Detector are combating gendered disinformation and sexist language through different activities:

1. **Research** to identify and address sexist language
2. **Fact-checking** to expose and counter gendered disinformation
3. **AI-powered technologies** to promote access to reliable information
4. **Professional trainings** for journalists on gender-sensitive reporting
5. **Media literacy programs** for youngsters, teachers, and university professors to empower informed media consumption
6. **Awareness campaigns** to foster understanding and drive change
